## Plastic HDMI to AV converter JHAV/27

**Enjoy the vivid world!**

## Product introduction

This plastic HDMI to AV converter can convert HDMI digital signal to AV (CVBS) composite video signal and FL/FR stereo audio signal. It can convert high quality HDMI video signal to normal CVBS signals (standard-definition 480i, 576i) which can be received by TV, VHS VCR players, DVD recorder. Also it can support NTSC and PAL two standard formats. Tips: It cannot support DTS and RAW codes.

## Features

1. No need to install drivers, plug and play
2. By pressing "PAL/NTSC" switch on the converter, you can easily change the format between NTSC and PAL
3. Support full format output (NTSC, PAL)

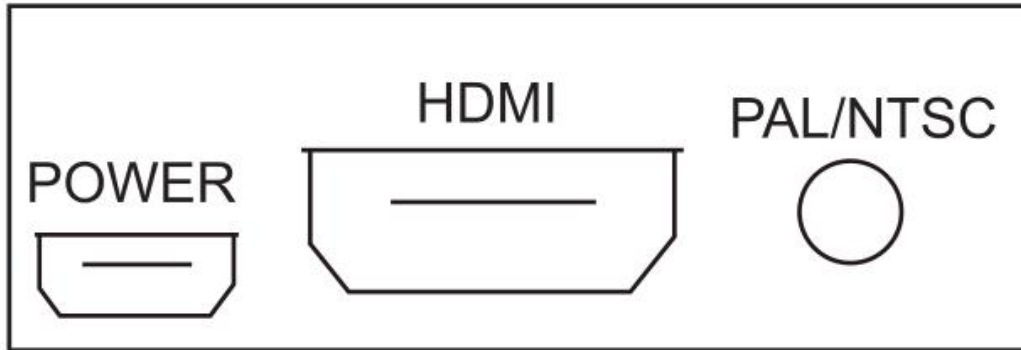

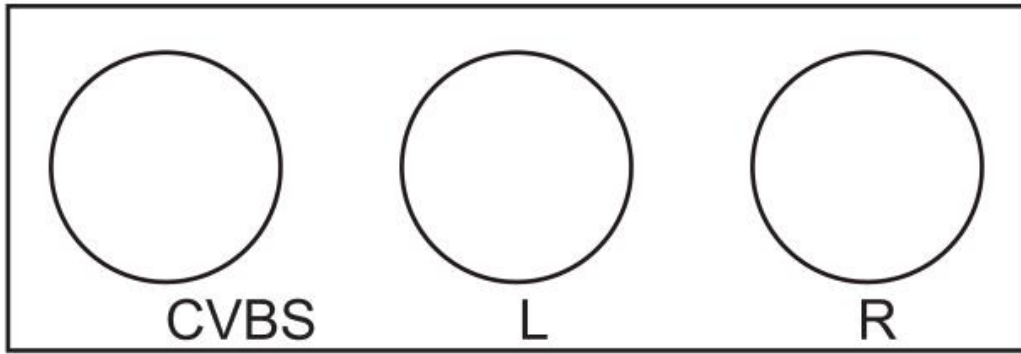

## Specification

1. HDMI input format: 480i/60Hz, 480p/60Hz, 576i/60Hz, 576p/60Hz, 720p50/60Hz, 1080i50/60Hz, 1080p50/60Hz
2. AV output: CVBS(1.0Vpp)、S-Video(Y:1.0Vpp、C:0.3Vpp)
3. Output video format : PAL/NTSC
4. Output video signal impedance: 75 Ohm

5. Max working current: 320mA
6. Need DC 5V/1A power supply
7. Demension (L x W x H): 70\*65.8\*20.2mm
8. Net weight: 40g

## Physical Connection Showing Picture

### **The Package includes**

- 1、 HDMI TO AV converter
- 2、 5V power supply
- 3、 User manual
