

DISCRIPTION

The HDMI Extender over CAT-5E/6 uses one piece of CAT-5e/6 cable to extend the HDTV display up to 50 meters for 1080p, It not only breaks the limitation of the HDMI cable transmission length, but also CAT-5E/6 has more flexibility and convenience in cable construction. It is equipped with HDMI (high definition multimedia interface) connectors and is capable of supporting DVI (digital visual interface) equipment when used with an HDMI to DVI adapter, providing greater flexibility and options when integrating several home theater components. It offers solutions for residential consumers: HDTV retail and show site, HDTV, STB, DVD and projector factories, space and security concerns, data center control, information distribution, conference room presentation, school and corporate training environments.

FEATURES

- One pair as a full functional module, no need of setting.
- CAT-5e/6 cable can substitute HDMI cable to achieve long distance transmission
- Follow the standard of IEEE-568B
- Compact size
- Transmission distance can be up to 50 meters for 1080p while using CAT-5e/6 cable
- Signaling rates up to 1.65Gbps in support of 1080p display
- HDCP compliant
- Support uncompressed audio such as LPCM.
- Support compressed audio such as DTS Digital, Dolby Digital (including DTS-HD and Dolby true HD)
